

The F.O.E.s

Peculiar transients, supernova, gravitational wave sources
massive star evolution, binaries, stellar populations

Maria Drout

maria.drout@utoronto.ca

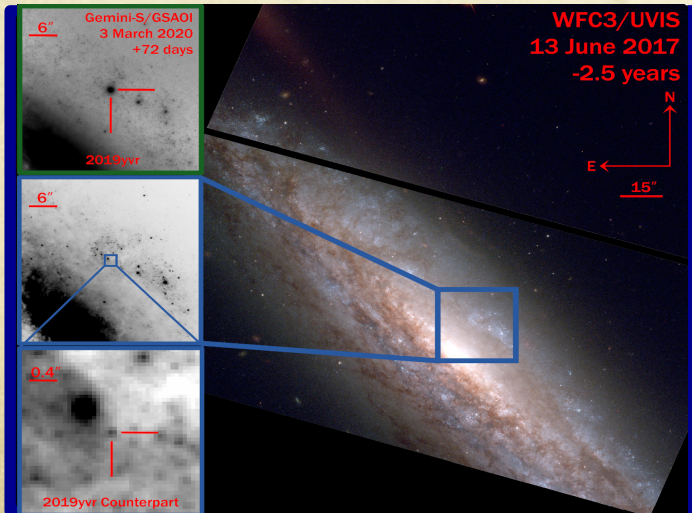

Origin of new classes of transients

Gravitational Wave Sources

Progenitors of supernova

Stellar populations as probes of stellar/binary evolution

The F.O.E.s

Peculiar transients, supernova, gravitational wave sources
massive star evolution, binaries, stellar populations
